## We'll Make It Together

**Project One**  
2-3 Hours  
Zine Making Workshop

---

# Hope

This week's project is on the theme of hope. Your brief is to explore ideas around 'hope' and then create an outcome inspired by the theme.

You can respond to it in any design discipline that speaks to you. In this project there will be a **zine making workshop** to help inspire you and get you making. You can then go on to make your own outcome or build/develop on what you made in the zine workshop for your final outcome. It's up to you!

## Task 1:

Research ideas and existing projects on the theme of hope. You can look at anything from music, videos, podcasts, films, and so much more! This is to get you inspired and help inform your final outcome.

## What is a Zine?

A zine is a small-circulation, self-published work of original or appropriated texts and images, usually reproduced via photocopier. They grew out of the punk movement where people made fan zines about their favourite bands and music. They can be playful, clever, funny, and really DIY in nature.

Zines are the product of either a single person or of a very small group, and are popularly photocopied into physical prints for circulation.

**Task 2:** Research Zines – look online, instagram, and youtube and find examples of contemporary zines.

Here's a short documentary about zines:
